## Booking Replacement Care

### What do you want when you book replacement care (respite)?

Devon County Council would like to know what you would like in a replacement care booking system.

It could have the same type of features as any on-line booking or shopping application (e.g. Trivago, Amazon), and must have a method of searching for care, booking, paying for care (if relevant) and other features, such as feedback.

The system will be for anyone to use - self funders or people using commissioned DCC service.

Here are some examples of sites which you might use already which probably contain the features you would like to use.

This survey is available online [here](#)

Thank you.
